Nov 11 2021

I am pleased to say that the Alma 354ILC_HR institutions data was successfully migrated and loaded to the production environment and you could start testing the data now. Please don't modify the data until initial data tests have been finished. For data testing you can of course modify single records.

Please submit any issues/questions you have via support incident using the Ex Libris Support Portal: https://support.exlibrisgroup.com rather than Basecamp. This should now be used only for project issues or discussions that you may contact us with.

==**Please note!**==
==**Primo VE is not ready yet. It will be released later on, latest on Friday, 19 November.**==
